

1.) OPEN A DONOR ADVISED FUND

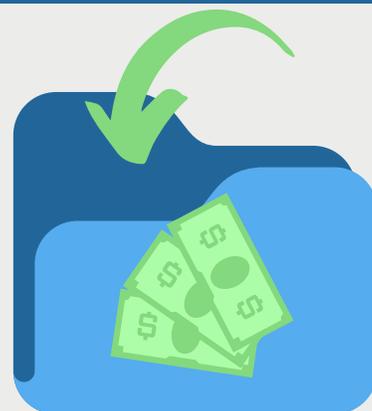

Open a charitable investment account through sponsor companies like Fidelity Charitable, Vanguard or Charles Schwab.

Support charities and organizations through annual or recurring distributions while receiving an immediate tax benefit.

2.) FUND YOUR DAF

Your donation of non-revocable, cash gifts makes you immediately eligible for a tax deduction.

Other gifts such as stock and long-term assets should be discussed with your financial advisor.

3.) GROW YOUR GIVING POTENTIAL

These donations can potentially grow tax free in your DAF account allowing you to make even larger charitable distributions over time.

4.) DISBURSE GRANTS TO CHARITIES

Once the account is funded, you can recommend a grant to a specific charity like the Central Association of the Miraculous Medal (Tax ID 23-1353295).

The charitable sponsor is in charge of doing all the due diligence of vetting charities before a grant is dispersed.

You can make grant recommendations in honor of or in memory of a loved one.
